TO WHOM IT MAY CONCERN,

A New Life is an Australian based medical travel facilitator specialising in Bariatric Surgery in Malaysia.

The surgeon we use and recommend is Dato Dr Tikfu Gee MBBS, MS (Surgery). He is the consultative surgeon to the Prince Court Medical Center in Kuala Lumpur, Malaysia.

You can read more about Dr Gee here: <https://www.anewlife.com.au/about-the-doctors/>

Dr Gee requires some testing to be completed prior to accepting the patient to ensure that the patient is a good candidate for gastric surgery.

Along with your own recommendations, the patient would need the following completed:

- 1) Blood work – Full blood count, liver function, renal profile, thyroid function, serum cortisol.
- 2) Ultrasound – Abdominal

If over the age of 40

- 3) Chest XRay
- 4) ECG

If your patient has a heart condition, is taking aspirin or blood thinners, or has a history of mild stroke

- 5) Full cardiologists report or cardiac work-up.

If you could provide referrals it would be greatly appreciated.

If you have any questions or concerns, please don't hesitate to contact us.
